WORK EXPERIENCE

Freelance UI/UX Designer and Video Editor
July 2023 - Present | Remote

Skills: Figma, Canva, Adobe Premier, Adobe Photoshop

Specializing in UI/UX design using Figma and video editing with Premiere Pro, I bring a focused skill set to freelance projects. With a knack for translating client visions into impactful designs and compelling multimedia content, I am committed to delivering high-quality work.

Frontend Developer and UI/UX Designer Intern:
Southern Taiwan University of Science and Technology, Tainan, Taiwan | February - June 2023 | On-site

Skills: React JS, Tailwind CSS, GitHub, Figma

Responsible for designing and developing user-friendly websites, implementing frontend technologies, and ensuring a seamless user experience. I also actively participated in research projects, exploring innovative solutions and staying updated with industry trends. Through these experiences, I developed a diverse skill set that includes technical proficiency, design expertise, and a research-oriented mindset.

Frontend Developer:
KLB Solutions LLC, Cebu, Philippines | May 2021 - April 2022 | On-site

Skills: WordPress, Shopify, Google Analytics, Canva, SEO

Crafting a variety of websites, from e-commerce platforms to small to medium-sized business sites, I blend front-end development expertise and a thorough understanding of user experience principles. My work stands out through seamless integration of SEO best practices, ensuring websites not only meet client requirements but also excel in enhancing user engagement and boosting conversion rates.
